How to Load the Parent Dashboard from a Member Profile

1. Open the Member Profile Page 0:00

- Start on the **member profile page**.
- This is where you'll access the parent dashboard view from within the member's record.

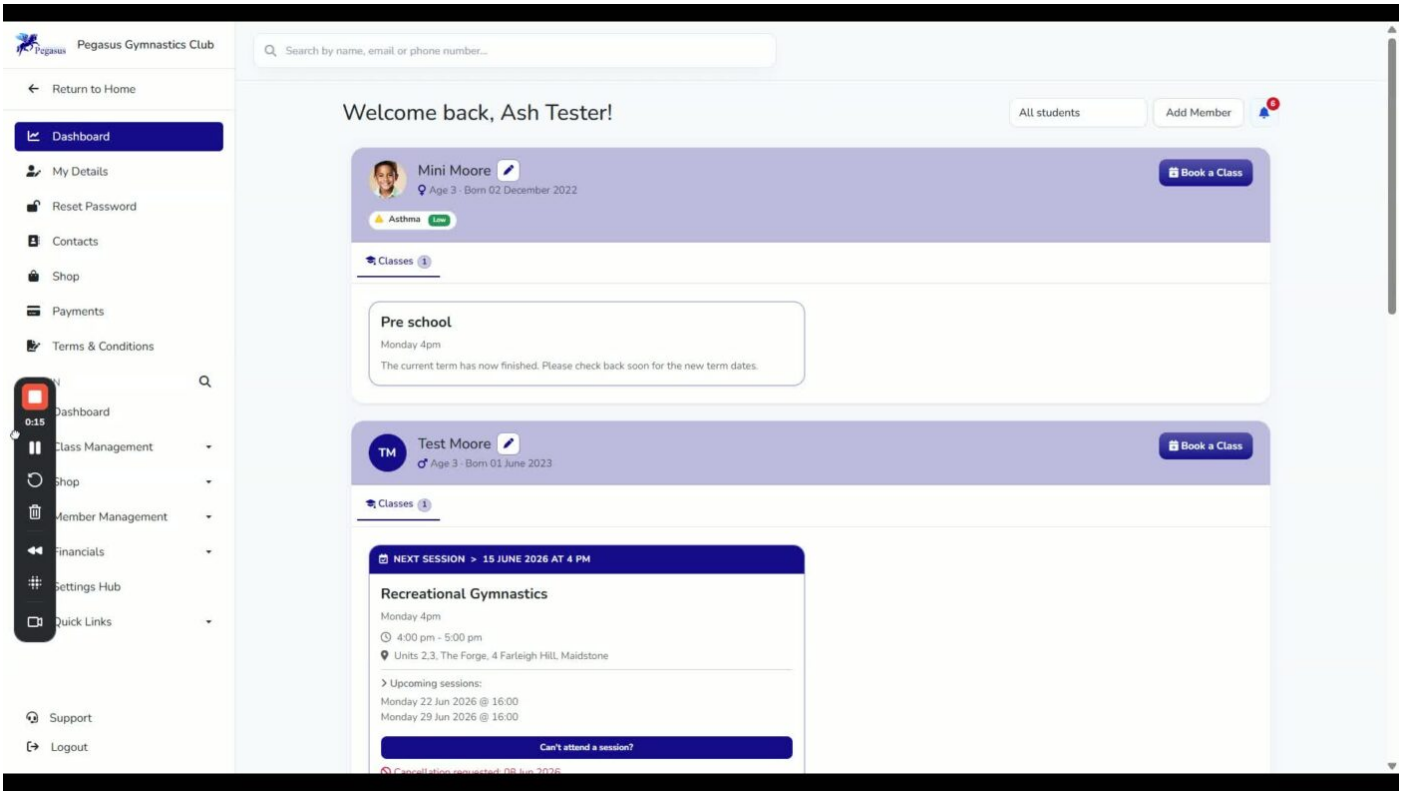

2. Select "Load Dashboard" 0:08

- Click **Load Dashboard** on the member profile page.

- This opens the dashboard exactly as the parent would see it when they log in.

3. Review the Parent Dashboard View 0:16

- Confirm that the dashboard displays the member's **attached children**.
- Check the **scheduled classes** and any **bookings** the parent has made.
- Use the available **tabs** to navigate through the rest of the parent dashboard information.
