# How Parents Book a Multi-Event Class

Multi-event classes, such as holiday camps and workshops, let parents choose individual events for each child. Siblings can go to different events in one booking.

## Booking events

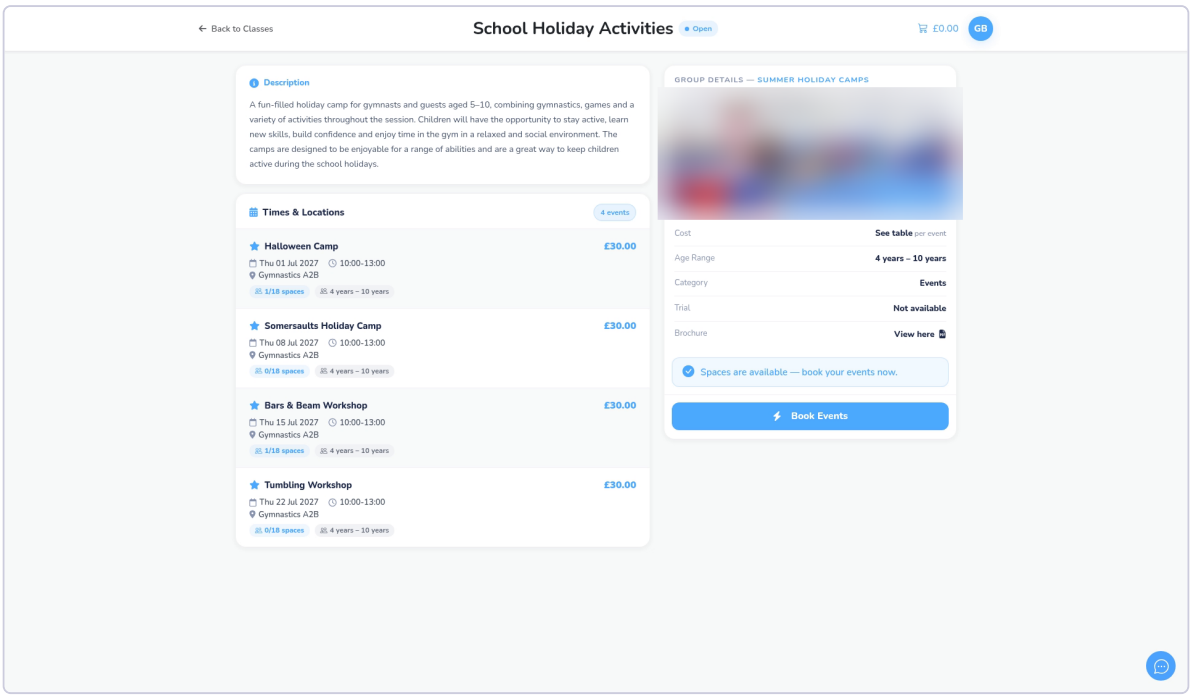

### 1. Find the event class (0:00)

- On the club's classes page, open the events category, for example **Events › School Holiday Activities**.

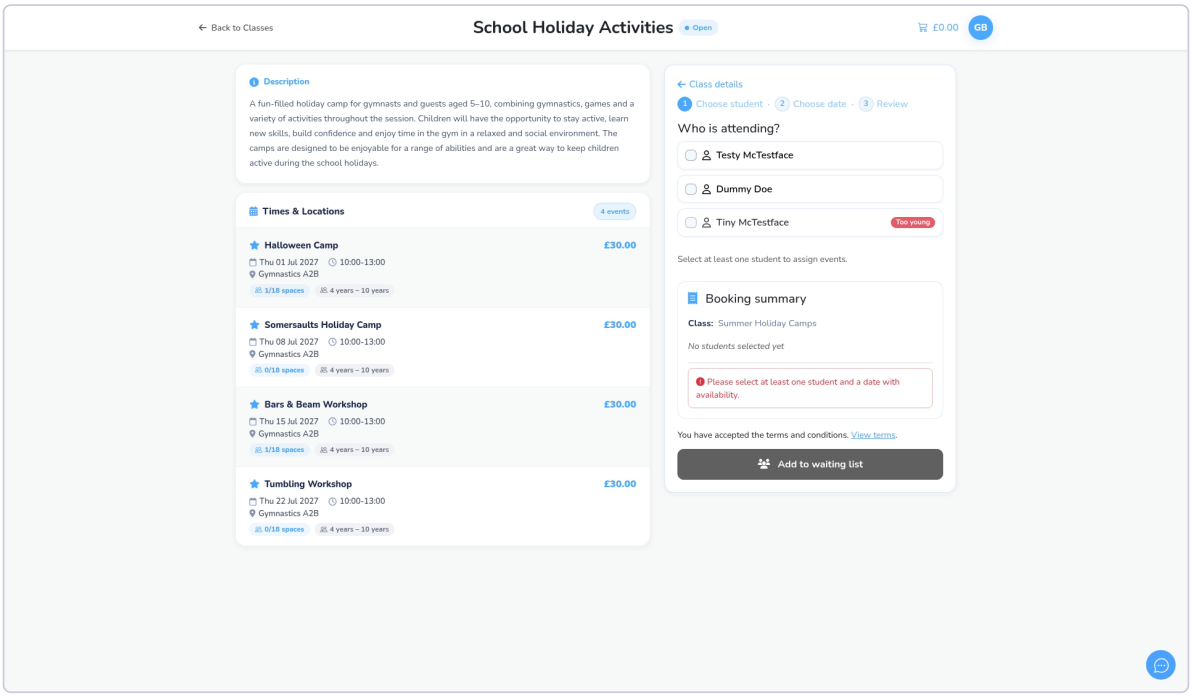

### 2. View more information (0:12)

- Click **More Info** to see the description, each event's dates and times, and the locations.

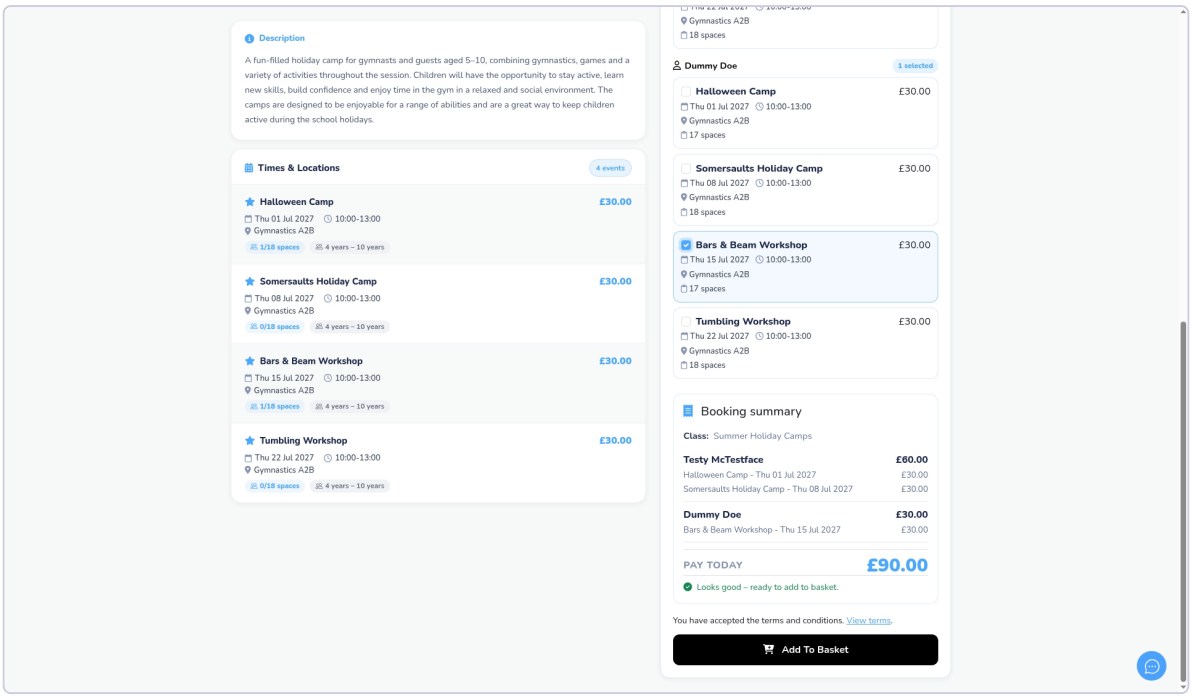

## 3. Book events (0:22)

- Click **Book Events**.
- Under **Who is attending?** you'll see your children, with a reminder: "Choose events individually for each child – they can attend different ones."

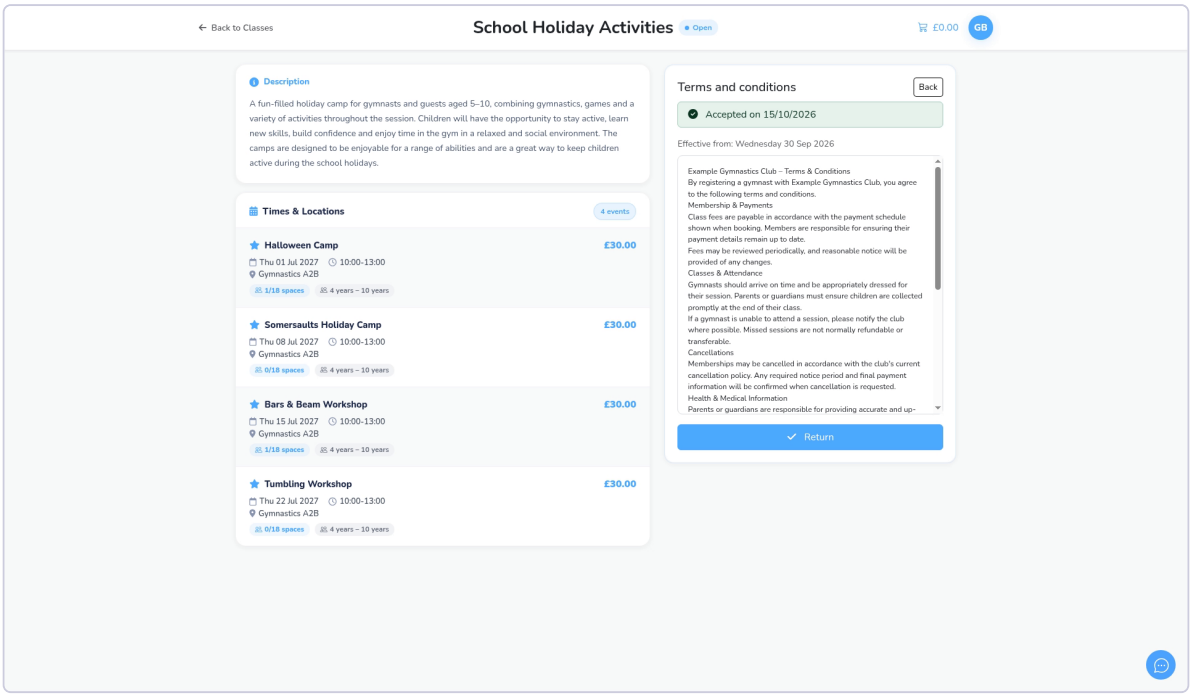

## 4. Choose events for each child (0:30)

- Pick a child, then tick the events they'll attend, for example **Halloween Camp** and **Somersaults Holiday Camp**.
- Pick another child and choose their events, for example **Bars & Beam Workshop**.
- The **Booking summary** lists each child's events and the **Pay today** total.

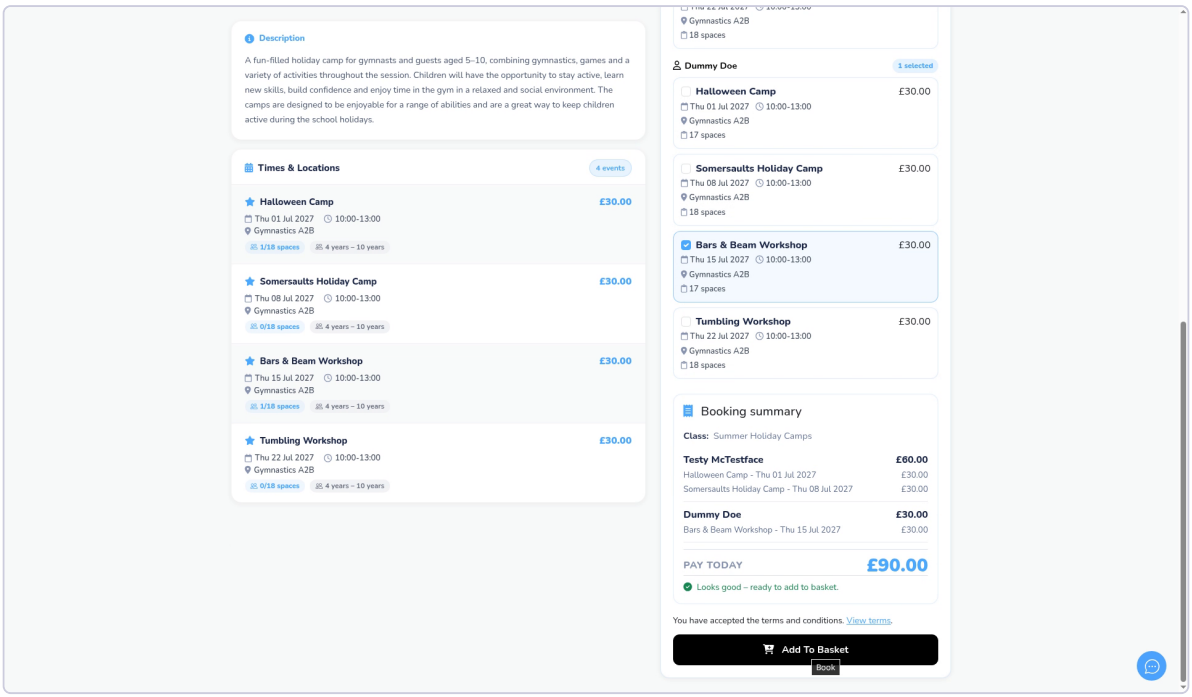

## 5. Read the terms (0:56)

- Click **View terms** to read the club's terms and conditions.

## 6. Add to basket (1:09)

- Check the summary, then click **Add To Basket**.

## Basket, payment and confirmation

- After **Add To Basket**, the basket shows each child, the events booked for them and the total.
- Pay with your saved default card. Once payment goes through, you're taken to a confirmation page.
- You'll also get a confirmation email listing every event booked.

## Good to know

- If some events are full, the button changes to **Add to basket & waiting list** or **Add to waiting list**.
- If the class is full, the button on the class page reads **Join Waiting List** instead of **Book Events**.
- Clicking **Accept and return** in the terms (or **Return** if you've already accepted) records that you accept the club's terms. Use **Back** to just close them.
